CCPD asks you to help us help you

Record your serial numbers and keep them in a safe place!

A detailed description of your property, with value, and serial numbers, is vital for the police to assist in the recovery of your items if they are stolen from your home or car, or for insurance if lost in a fire. The CCPD recommends using this form to record the identification and value of your property for the police and for insurance claims.

Brand/Manufacturer	*Item/Description*	*Serial Number or Owner Applied #*	*Model Number*	*Color*	*Approx. Value*

Tips: This form can be downloaded from www.columbiacitypolice.us , under the Safety Tips, Home Inventory. It is helpful to photograph your property and to keep the photos on a computer or flash drive for future reference. Smaller items such as jewelry should be photographed with an ID card and a ruler to show size. If your valuable items do not have serial numbers, engrave them with a unique number such as a Driver's License Number.

COLUMBIA CITY POLICE: For Emergencies call 911, non-emergency call (260)248-5121
